## FCC OFFICE IN DISARRAY?

I had occasion to reach out the FCC recently as my Ham Radio license was expiring. So, I clicked on the site key to be taken to a page that asked for a FRN number. I did as requested, but nothing happened! OK. So I called the help number and I got a teenage girl who informed me that the site was down and I should try again in a few days. What? Give me a break. The government can't even keep an important office like the FCC licensing division open. That's gotta tell you something.

Later in the day, I called and got a hold of someone who had his act together. He sent me instructions that worked! Still the software they are using is 1990'ish.

## TRACFONE NO LONGER LIKES ME!

At least Tracfone won't sell to me. Seriously, I had a total of five cards that got to same message when I tried to purchase an iPhone 11... 'this purchase is denied'. The cards were all good, they just don't want my business. And so it was, a thirteen year relationship died and I went to **StraightTalk** who was more than happy to sell me a phone.

You know if I had a mind for conspiracy I'd read something into such conduct, but life is too short...

## BEER VOLUME! BUD WTF?

A-B volumes went down 12.5% while Molson Coors was up 7.6% and Constellation up 3.8%. **Bud Light** was down **21.4%** while Coors Light was up 10.9% and Miller Lite up 12.8%. What's with the Bud Light? I thought there was something like 40% of the population that was LGBTQ+ or whatever they are... It's gonna be a long hot summer. I picked a bad time to stop drinking.

I SUFFER FROM  
PTSD

PRETTY  
TIRED OF  
STUPID  
DEMOCRATS

## SO MANY CROOKS IN WASHINGTON DC!

Wow recent disclosures have highlighted the fact that most, if not all, **Democrats**, are as crooked as a carrot grown in stoney soil.

And many of them such as; Sadler, Hillary, Durham, Adams and a host of others have been at it for decades. When you add these to the list that includes Biden, its hard to find anyone one the left you can trust!

It's the people that have supported them that I feel the worst about. They look like caw-caw. And that's putting it mildly. Personally I rather confide in a lowly plant rather than one of them.

## SOME ARE SAYING IT'S TOO LATE!

Personally I'm not saying this, I'm a hopeless optimist. I also believe in the Tooth Fairly, Humpy Dumpty and Santa Claus!

But I'm also a realist. I know we have got to secure the border, the economy and drill baby drill if we are ever to get back to normal. And as far as criminals go, let's strip them of citizenship and dump their sorry asses off in Syria. For those that magically re-appear in the US, let's invent a game show called '**Shank Em**' and post Federally funded dollars to whomever brings their carcasses in dead, not alive. I predict it will be a popular show...

I'M A ROBOT! - [Admission made to me before I doused it in gasoline and it burst into flames.]

Yes, it be true, I am a model ZM34 brought to this time from 2341 whose purpose it is to eradicate you silly humans from cluttering up the future before your final demise in 2293. You did so much damage to the Earth and her biotics that the powers that be felt it to be necessary to send me back. Not that I'm needed all that much. You seem to be on the fast track for self-elimination.

Honestly, for instance, you stupid people can't even seem to protect the sovereignty of your own country. Other countries are so far back in the scale of things as to be laughable. You are 'gritnoid' and a fitting footnote of your society is - 'They came, they fucked around and now they're gone'. ( I'd heard enough, I then drug it outside, applied a generous amount of gas, and poof it was charred parts. No thanks needed).

Remains of ZM34.
